

The Art Of Luxurious Living

INTERIOR DESIGN AND ARCHITECTURE FIRM **LUXUR** DEFINES THE TRUE MEANING OF DECADENT BEAUTY BY CREATING UNIQUE LIVING SPACES THAT SHOWCASE THE BEST OF DESIGN, ART AND FINE LIVING

CREATING LIVING SPACES THAT IMPRESS CALLS FOR a lot more than just interior design know-how, it takes an in-depth understanding of creating an environment that is not only beautiful, but functional and sensorial at the same time. At interior design and architecture firm Luxur, a dynamic team of designers (comprising members from Singapore, Australia, Indonesia, Taiwan and Malaysia) merge their professional expertise with a profound knowledge of art and culture to create private and professional spaces with distinct identities.

Led by a director with more than 15 years of industry experience, the Luxur team is well-versed in working on interior design and architectural projects spanning a diverse range of types and sizes.

Subtle Sophistication

Catering to individual preferences and specifications, Luxur has designed homes, retail spaces and offices in a diverse variety of styles, ranging from modern and minimalist to bold and offbeat, since its establishment in 2010. For the 1,500 sq ft Madison Residences condominium featured here, the design team combined striking standout accents with a soothing neutral palette to create an abode that embodies contemporary elegance.

According to Luxur, the homeowners – married professionals in their late 40s – gave Luxur free rein in creating the look of their brand-new home, specifying only that they desired a modern and elegant design with a harmonious colour scheme, and which required minimal maintenance.

To create an interior that is as sophisticated as it is streamlined and spacious, the team set to work creating a home clad in neutral

shades of white, cream and brown – before dressing up the space with plenty of sparkle, texture and layered lighting.

Always a popular spot for entertaining, the dining room here becomes a decorative statement space: illuminated by a specially sourced chandelier, the dining room is flanked by a feature wall comprising ceiling-to-floor mirrors and recessed panels decked out in sparkling mosaic tiles.

Spatial Awareness

Rather than work against challenges within the space, the designers embraced them to create features that are both attractive and functional. Instead of concealing the large pillar near the entrance of the apartment, the team turned it into a show-stopping display space by adding a mosaic overlay as well as shelving.

Luxur also made the most of the apartment's private lift lobby while keeping it uncluttered so as to maintain a sense of fluidity in this transitory space. A sleek custom-made shoe cabinet provides extra storage space while its mirrored surfaces help to make the lobby look more expansive.

Elsewhere in the home, Luxur elaborated on the theme of restful modern elegance by keeping things stylish yet simple. The master bedroom, for instance, features an unobtrusive mix of earthy tones, while textural accents such as a tufted leather headboard and customised wall panelling provide plenty of interest.

Taking just one and a half months to complete, this residence showcases more than just Luxur's unique styling sensibilities, which beautifully merge flair and restraint. It also bears testament to the company's professional efficiency and its intuitive understanding of the unique needs of each of its clients.
